Subject: Congresswoman Dingell and NVFEL in the news
Attachments: Letter to POTUS fuel economy lab 4.18.17.pdf

Dear all –

You or your staff may have seen an article in the Detroit News regarding Congresswoman Dingell:

<http://www.detroitnews.com/story/business/autos/2017/04/19/dems-fight-save-funding-ann-arbor-epa-facility/100669350/>

And I have also attached the letter that Congresswoman Dingell sent to President Trump.

I don't know anything regarding the information in the letter about Congresswoman Dingell being "denied access" to NVFEL.

What I do know is that OCIR is working with the Congresswoman's staff to try and arrange a visit in May, perhaps on May 11 – but nothing has been locked down. When I learn more about a potential visit, I will let folks know.

Thanks
Bill
